Where do I find materials to use?

The library has a limited number of materials on hand to purchase and prices generally range from $7-$21. You can supply your own materials but the library cannot guarantee a successful 'print' and suggest that a sample or test be tried before fulling cutting or engraving your product.

What is the cost for materials or use the machine?

The cost of use the Glowforge is $1.00 per use, meaning each time the button is pressed.
